

**Our logistics center in
Berlin-Brandenburg:**

Altlandsberg

Warehousing & Distribution

With over 60,000 m² of storage space, Altlandsberg in the Berlin-Brandenburg metropolitan region is an optimal warehouse location for your supply chain. Whether foodstuffs with different temperature requirements or non-food goods, we take care of the entire logistics process: procurement, storage, cross-docking, order picking and distribution to B2B or B2C customers. Altlandsberg is the central hub for your logistics requirements. And for rapidly growing e-commerce companies, we offer individually scalable fulfilment solutions.

FOCUS INDUSTRIES

Our services:

- **Scalable e-commerce fulfilment**
Dynamic growth in e-commerce requires scalable logistics solutions. This precisely distinguishes our fulfilment approach: We have a high degree of flexibility to react to fluctuations and thus stand by our customers as a reliable fulfilment service partner.
- **Contract logistics – everything from a single source**
Our solutions range from temperature-controlled products to consumer goods, to bulky items, which are handled by a 2-man team.
- **Production logistics**
With our multi-user logistics centre, we see ourselves as an integral part of your production management and advise you along your entire supply chain – from procurement logistics to transport management and the distribution of your products to the disposal of residues.
- **Food logistics**
Our range of temperature-controlled logistics in the food sector includes the storage and transport of frozen products as well as the transport of frozen goods, ultra-fresh goods, fresh goods and extends to fruit and vegetables in various temperature zones.
- **Value-Added Services**
In addition to our warehousing, fulfillment, and transportation services, we offer numerous value-added services covering the entire value chain.

End-to-End & Face-to-Face

Thanks to our expertise, we are always able to offer individually tailored logistics solutions for diverse industries and requirements. Our more than 25 years of METRO experience have contributed to our reputation for being particularly reliable, fast and flexible. Certainly not a bad predicate in a constantly growing and changing logistics market. Get in touch with us!
